TREASURE

Not much is known about loitsunmetsästäjä, once a kobold - or similar - he became cursed after a mage of Old Sauvan was outwitted by their mother. The mage cursed the child and turned them into an aberrant monstrosity, then he tried - unsuccessfully - to slaughter the woman that defeated him.

Having survived the incident, loitsun became hellbent on getting revenge. Years down the line New Sauvan was built over the ruins of the Old one ~ after a small conflict between local institutions became so overblown it ended up leveling the entire place and turning it into a curious stretch of the swamp into the rainforest.

Now in the glowing, alchemical precursor littered canals of the town, the magestalker devised a plan to kill each and every single one of the remaining mages responsible for his wretched existence and the destruction of his home of yore.

-----Features-----

----- War Mage -----

Arcane Recovery

You have learned to regain some of your magical energy by studying your spellbook. Once per day when you finish a short rest, you can choose expended spell slots to recover. The spell slots can have a combined level that is equal to or less than half your wizard level (rounded up), and none of the slots can be 6th level or higher.

For example, if you're a 4th-level wizard, you can recover up to two levels worth of spell slots. You can recover either a 2nd-level spell slot or two 1st-level spell slots.

Arcane Deflection

At 2nd level, you have learned to weave your magic to fortify yourself against harm. When you are hit by an attack or you fail a saving throw, you can use your reaction to gain a +2 bonus to your AC against that attack or a +4 bonus to that saving throw.

When you use this feature, you can't cast spells other than cantrips until the end of your next turn.

Tactical Wit

Starting at 2nd level, your keen ability to assess tactical situations allows you to act quickly in battle. You can give yourself a bonus to your initiative rolls equal to your Intelligence modifier.

Power Surge

Starting at 6th level, you can store magical energy within yourself to later empower your damaging spells.

You can store a maximum number of power surges equal to your Intelligence modifier (minimum of one). Whenever you finish a long rest, your number of power surges resets to one. Whenever you successfully end a spell with Dispel Magic or Counterspell, you gain one power surge, as you steal magic from the spell you foiled. If you end a short rest with no power surges, you gain one power surge.

Once per turn when you deal damage to a creature or object with a wizard spell, you can spend one power surge to deal extra force damage to that target. The extra damage equals half your wizard level.

----- Blood Hunter -----

Sagacity

Your Intelligence score increases by 3, as does your Intelligence maximum. This bonus increases by 1 at 11th level (+4) and 18th level (+5).

Side Effect: You gain disadvantage on Charisma saving throws.
